

Etatron eControl

Measurement / control device for pH, Rx, and CI ppm, with one or two independent control measures

- pH measure: 0.00 to 14.00
- Rx measure: -1000 to +1400 mV
- CI measure: 0 to 2, 0 to 10, 0 to 20, 0 to 200 ppm
- Temperature measure: 0 to 100°C (PT100)
- Timer
- ON / OFF or proportional 4 - 20 mA for each channel
- Alarm Relay Output (overdose, min/max, low level)
- IP65 protection
