

Dosatron D3FL2N Food Line

_ Food Line Doser D3FL2N

Water powered proportional pump without electricity with FDA-Certificate (for food industry)

- Non-electric dosing (water-driven hydraulic motor)
- Flexible installation (no powerlines or pressurized-air pipes needed)
- Certified materials acc. to US Food and Drug Admin. (FDA)
- Clearly identifiable wear parts (with special marking)
- High dosing accuracy of +/- 3% acc. to API675
- Independent of fluctuations in throughput or pressure, and pipe lengths
- Easy operation and maintenance on site

Applications, e.g.:

- Care and disinfection of piping systems
- Portable water treatment
- Olfaction control

Technical Data:

- Dosing rate: 0,2 - 2%
- Capacity: 10 – 3000 l/h

- Operating pressure: 0,3 - 6 bar
