

Iwaki metering pump Series EWN-Y

Metering pump Series EWN-Y

Diaphragm metering pump

- Diaphragm with electromagnetic drive
- Flow rate up to 25l / h
- Pump heads available in PVC / PP / PVDF / Stainless Steel
- Manually air-bleed valve
- High pressure model up to 17bar
- High compression model for outgassing liquids
- High viscosity up to 3000 mPas
- Control panel with LCD display
- Control via mA signal or contact switch
- Power 100-24V 50 / 60Hz
- Pump controller with input for flow control, flow sensor and flow meter
- Relay output for fault indication

Max Flow rate
25,2 l/h

Max. Pressure
14 bar

Pump head
PVC / GFRPP / SUS316 /20 bis 24 W
PVDF

Power consumption
